

A DIFFERENT APPROACH TO EQUITY INVESTING
Sprott Enhanced Equity Strategy

John Wilson takes a different approach to equity investing

John Wilson joined Spratt in January 2012 as Senior Portfolio Manager and was later appointed Chief Executive Officer and Co-Chief Investment Officer. John has more than 25 years of investment and business experience. Prior to joining Spratt, he was CIO at Cumberland Private Wealth Management where he managed \$1.7B AUM for high net worth investors and distinguished himself by consistently outperforming the benchmarks. In 2005, John founded DDX Capital Partners, an alternative investment manager.

"Our investment approach is built around the fundamental idea that the best way to make money is not to lose it first. For us, risk is simply losing money."

Sprott Enhanced Equity Strategy

In an environment where investors can no longer rely on 'Buy and Hold' strategies and markets are increasingly difficult to predict, Sprott Enhanced Equity Strategy offers a unique way to invest, and stay invested in equities.

Sprott Enhanced Equity Strategy is designed to provide long-term growth with a focus on capital preservation. The strategy manager, **John Wilson**, has a proven track record of achieving results for his clients by following the simple principle of "winning by not losing". His core equity strategy focuses on a concentrated portfolio of quality companies and uses options, tactical cash allocation and a well-defined investment process, including loss limits and sell discipline to reduce risk and enhance returns.

CONCENTRATED PORTFOLIO OF QUALITY COMPANIES

The portfolio usually consists of 25-35 large cap companies that typically have three characteristics:

- Generate free cash flow
- Trade at a discount to their long-term value
- Provide a higher degree of predictability (e.g. recurring contract revenue, high market share)

OPTIONS OVERLAY

Options are usually no more than 5% of the portfolio but provide two very powerful benefits:

- Enhanced risk management – insurance to protect against negative market outcomes
- Enhanced risk/return – maximize return per unit of risk

TACTICAL CASH ALLOCATION

John tactically adjusts portfolio's cash position, usually between 0%-40%, to manage risk.

WELL-DEFINED RISK MANAGEMENT PROCESS

A well-defined investment process that includes loss limits and sell discipline, provides an added objective measure to ensure that the losers are identified early and sold out of the portfolio, and the winners are sold when they reach their target price.

Strategy in Action

We offer a number of investment options to access Sprott Enhanced Equity Strategy: two equity mutual funds (North American and U.S. only mandates), balanced mutual funds and long-short funds for accredited investors.

Equity Mutual Funds

Sprott Enhanced Equity Class and **Sprott Enhanced U.S. Equity Class** are both ideal solutions for a core equity allocation. They are designed to provide long-term growth with a focus on reducing downside risk.

Sprott Enhanced U.S. Equity Class was launched in July, 2015 and it is a U.S. only mandate, with the U.S. dollar as its main currency.

	CUMULATIVE RETURN (%)	DOWNSIDE CAPTURE (%)	UPSIDE CAPTURE (%)	UPMARKET RETURN (%)	DOWNMARKET RETURN (%)	DOWNSIDE DEVIATION (%)	SORTINO RATIO ⁴

Peer Group ²	86.80	119.27	73.74	113.19	-26.08	4.55	2.88

As of April 28, 2017, cumulative return since inception of the Fund on April 17, 2012, partial month return in inception month has been excluded from risk measures.

Balanced Mutual Funds

Sprott Enhanced Balanced Fund and **Sprott Enhanced Balanced Class** are ideal core balanced holdings for risk-averse investors.

	CUMULATIVE RETURN (%)	DOWNSIDE CAPTURE (%)	UPSIDE CAPTURE (%)	UPMARKET RETURN (%)	DOWNMARKET RETURN (%)	DOWNSIDE DEVIATION (%)	SORTINO RATIO ⁴
Sprott Enhanced Balanced Fund ¹	23.24	72.72	40.59	40.24	-11.81	2.51	1.73

As of April 28, 2017, cumulative return since inception of the Fund on April 17, 2012, partial month return in inception month has been excluded from risk measures.

Long-Short Funds for Accredited Investors

Sprott Enhanced Long-Short Equity Fund L.P. and **Sprott Enhanced Long-Short Equity RSP Fund** are designed to deliver:

- Attractive risk-adjusted returns through a number of active hedge fund strategies
- Returns with less correlation to overall bond and equity markets when compared to traditional long-only funds

*John Wilson assumed the management of the Fund on February 27, 2012.

Downside Capture/Upside Capture – Measure how much of the benchmark return is being captured by the Fund, in periods when the benchmark was negative/positive.

Downmarket Return/Upmarket Return – The Fund's cumulative return in periods when the benchmark was negative/positive.

Standard Deviation – measures the variation of returns around the average mean return. The lower the number, the better.

Sortino Ratio – It measures risk-adjusted return. It is the excess return over the risk-free rate divided by the downside semi-variance, and so it measures the return to downside volatility. The higher the ratio, the better.
