HOW RISKY IS IT?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund’s returns change over time. This is called “volatility.”

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

RISK RATING

Sprott Asset Management LP has rated the volatility of this Fund as **low to medium**.

This rating is based on how much the Fund’s returns have changed from year to year. It doesn’t tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the

Fund's returns, see "What Are the Risks of Investing in the Fund?" section of the Fund's simplified prospectus.

NO GUARANTEES

A WORD ABOUT TAX

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live, the type of earnings (ie, income or capital gains), and whether or not you hold the Fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your Fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

HOW MUCH DOES IT COST?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the Fund. The fees and expenses – including any commissions – can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales Charges

You have to choose a sales charge option when you buy Series A units of the Fund. Ask your representative about the pros and cons of each option available.

Sales charge option	What you pay		How it works
	in percent (%)	in dollars (\$)	
Initial sales charge	0% to 5.0% of the amount you purchase	\$0 to \$50 for each \$1,000 investment	<ul style="list-style-type: none"> You and your representative negotiate the rate. The initial sales charge is deducted from the gross amount at the time of purchase. It goes to your representative's firm as a sales commission.
Low load	If you redeem/reclassify: First Year: 3.00 Second Year: 2.50 Third Year: 2.00 Thereafter: 0.00	\$0 to \$30 for each \$1,000 investment of original purchase price	<ul style="list-style-type: none"> Investors pay no fees at the time of purchase but the Manager pays a fee of 3.0% to the representative's firm. This sales commission is based on the value of units of the Fund purchased. The deferred sales charge is a set rate based on the original purchase price. It is deducted from the amount you redeem within three years of purchase. If you wish to reclassify all or part of your investment in Series A units of the Fund that were purchased under the Low Load Option to a series of units of this Fund that is not available under the Low Load Option, you will be charged a deferred sales charge at the time of reclassification, based on the date you first bought the fund.

2. Fund Expenses

You don't pay these expenses directly. They affect you because they reduce the Fund's returns.
 As of December 31, 2016, the Fund's expenses were 3.21% of its value. This equals \$32.10 for every \$1,000 invested.

Annual Rate (as a % of the Fund's value)	
Management expense ratio (MER) This is the total of the Fund's management fee, incentive fee and operating expenses.	3.02%
Trading expense ratio (TER) These are the Fund's trading costs.	0.19%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the Fund. It is for the services and advice that your representative and his or her firm provide to you.

Sprott Asset Management LP pays the trailing commission to your representative's firm. It is paid from the Fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose:

Sales charge option	Amount of trailing commission	
	in percent (%)	in dollars (\$)
Initial sales charge	1.0% of the value of your investment each year	\$10 each year on every \$1,000 held
Low load	0.5% of the value of your investment held by you for more than one year and less than four years	\$5 each year on every \$1,000 held
	1.0% of the value of your investment held by you for more than four years	\$10 each year on every \$1,000 invested

3. Other Fees

You may have to pay other fees when you buy, hold, sell or switch units of the Fund.

FEE	WHAT YOU PAY
Switch Fee / Reclassification Fee	A fee of 0-2.0% of the value of the units you wish to switch or reclassify may be charged by your representative's firm, as negotiated with your representative.
Short-Term Trading Fee	Sprott Asset Management LP may impose a short-term trading fee payable by the unitholder to the Fund of up to 1.5% of the aggregate net asset value of the units redeemed if such units are redeemed within 20 days of their date of purchase or switch. For purposes of this short-term trading fee, units will be considered to be redeemed on a first-in, first-out basis. If Sprott Asset Management LP detects excessive trading of the unitholder's units in the Fund within 90 days of purchasing or switching them, it reserves the right to charge an additional 3.0% of the net asset value of the units.
Registered Tax Plan Fees	No fee is charged to open, close or administer a registered tax plan administered by Sprott Asset Management LP.
